Experience

ZT Systems, Austin — *Senior Test Technician*

June 2024 - NOW

- Supervise and train techs as a Line Lead
- Perform quality control of racks of servers (supercomputers)
- Run tests, troubleshoot failures, and replace hardware if necessary

Jann Software — *Founder*

2018 - FOREVER

- Expert Web and Game Developer
- Created a /projects page on my website that clearly demonstrates all of my projects including how, when, and why I built them
- Extensive knowledge and experience building applications from scratch, using custom frameworks and algorithms if necessary, adapting to new technologies
- Experienced with version control, web hosting, and deployment of fullstack web applications
- Capable of leveraging and integrating A.I. chatbots to build modern applications, with creative design skills only obtained by countless hours and passion
- Designed the logo to be a symbol for positive change, with a focus on self-improvement
- Automated my homepage and blog to dynamically react to the device and time

Cloud Payments, Austin — *Junior Software Developer*

June 2024 - Oct 2024

- Researched offline LLMs like Meta Llama 3
- Learned from the Lead Programmer how to be a professional developer

Best Buy, Woodland Hills — *Geek Squad Agent*

OCT 2022 - MARCH 2024

- Provided excellent sales, customer service, and solutions
- Solved problems hands-on, with empathy and patience
